	<p>This schedule covers records of the Meat and Poultry Inspection Program relating to approval of trade labels for poultry and poultry products. This is a <u>one-time</u> schedule only and relates to, but does not supersede, schedule NN-172-132, item 1.</p> <p>We have on hand approximately 152 cubic feet of poultry product labels, approved, not acted upon, or disapproved, dated prior to September 1971, which were never entered into the automated data processing or microfilm systems.</p> <p>The subject labels were terminated by letters to the establishments, in several stages, beginning September 1973, and ending April 1, 1974. The establishments were advised to reapply within 60 days from date of letter for any of the subject labels which they wished to continue using since they would be automatically terminated at the end of the 60 day period. Thus, all of these labels were terminated on or before June 1, 1974.</p> <p>The retention period for these labels expires June 1, 1975. Due to a critical space problem, we wish to dispose of the entire 152 cubic feet lot before the end of the retention period.</p> <p>Request a one-time waiver to retention schedule NN172-132 in order to effect immediate disposal of the records described above.</p>
