Henry - See the attached I took out the section of the FS that relates to stills and included it below and made a few suggestions and a request. Revised a bit of the Photo Lab Schedule, because the wording used was lifted from N1-56-01-03, and most likely does not apply to what is there now

What do you think?

13 ~~Photographic Prints, Negatives, and Slides~~ Photographs Maintained by Treasury Departmental Offices.

~~Photographic prints, negatives, and slides~~ (if as you say below the PAO has the record copy, then there should not be any negatives or slides in these departmental offices unless they are copy negatives or copy slides. After all, it is a very high probability, if not a certainty, that the images were made by OPA photo lab photographers - who else would do it? Hopefully they aren't contracting this out (or worse yet doing it themselves), that would lead to another set of issues not even addressed here. Consequently, I would again like to make one more pitch here to direct these departmental offices who maintain bodies of photos (like the construction photos at the Office of the Asst. Secretary for Management/CFO) to transfer all images after they no longer have a working need for them to the PAO, Photo lab. That way, all prints for negatives at PAO will be reunited and when transfer time comes will be sent together to us. If this isn't done, we likely won't get reference copies (part of the record element we need) for use here at NARA - which we will then have to go to the expense to make - not, in our experience, will it be likely that we will ever see these images again)

Photographs maintained by Treasury Departmental Offices other than the Office of Public Affairs. Photographs ~~ie prints, negatives, and slides~~ reflecting the historical significance of the Agency and related finding aids and documentation necessary for their proper identification, retrieval, and use. The Office of Public Affairs generally maintains the record copy.

Slides/Slide Sets: Transfer the original and a reference set, and the related audio recording and script.

- a. Original or master photographic prints, negatives, and slides

PERMANENT. Cut off every 5 years and transfer the required record elements listed above to the Treasury Photo lab of the Office of Public Affairs. Transfer to the National Archives and Records Administration ~~40~~ 5 years after cutoff. If I read this right, that means 15 years from the time the oldest photo was created, which is too long for the preservation of color photos stored at office conditions. Can we make it 5 years after the cutoff, then the oldest records would be 10 years old.

All other copies

Destroy when no longer needed for current agency business.

14. Routine Photographs, Negatives and Slides (GRS 21, Item 1)

Photographs of routine award ceremonies, social events, and activities not related to the mission of the agency.

Destroy when 1 year old.

16. Posters and Graphic Arts Products

Posters, charts, flyers, brochures, handouts, and other graphic arts products related to Treasury missions or programs and distributed agency-wide or to the public for promotional, scientific, educational, exhibition, or public relations purposes.

Posters.

PERMANENT. Transfer two copies of each poster directly to the National Archives upon printing.

2. Charts, flyers, brochures, and other graphic arts products.

Destroy when no longer needed for current agency business.

Photographic Laboratory

This office is responsible for taking photographs of top officials for display by the agency. The office also covers special events and activities within the agency.

1. Photographic Negatives. Central file photographic negatives documenting Treasury officials, activities and facilities including the photographic negatives of portraits of key officials and other staff members used to produce multiple copies for distribution to the public and for internal publications. The negatives (black and white (4"x 5")) are arranged in chronological assignment sequence, and housed in jackets bearing handwritten, group-level captions (generally 8-15 negatives per photo assignment).

The photolab currently maintains negatives dating back to ca 1992. The bulk of the holdings, ca. 3,000 images, are housed in plastic sleeves and maintained in eight 2-inch binders, as well as six 8x11x1 boxes.

Disposition: Permanent. Transfer to the National Archives in 5-year blocks when the newest negatives are 10 years old.

s:\WG2\Treasury DO\Phase 1\Public Affairs\Photo-Lab Schedule

From: Henry Wolfinger
To: Mccarter, Edward
Date: 2/27/03 1 42PM
Subject: Treasury DO Functional Schedule

Ed -

This responds to your comments of Feb 12/03 on the proposed Treasury DO Functional Schedule. I've corrected a minor error in the Photolab schedule and now forward a version from the one sent earlier this morning.

I do not wish to reopen the debate over the Office of Public Affairs schedule (N1-56-01-9) approved late last year. But the approved version of the schedule, which eliminated those series covered by the functional schedule, was forwarded to the SHUs for review, and NWCS was one of the concurring units.

In an effort to resolve your concerns, we have drafted a supplemental Public Affairs schedule specifically covering the Photographic Laboratory collection (copy attached). In addition, the proposed schedule for the Assistant Secretary for Management and CFO, which has been forwarded for SHU review, contains two items covering collections that contain still pictures.

We wish to retain the AV items in the functional schedule because other Treasury DO components will need instructions for any AV records that they may now maintain or accumulate in the future. But we are willing to revise the disposition instructions as you have recommended, reducing the transfer date for still photos to 10 years after cutoff (item 13), eliminating the reference to original artwork from the entry for posters and graphic arts productions (item 16), and further subdividing the item to distinguish the disposition of posters from that of other graphic arts products. Attached is a copy of the update.

Let me know whether this adequately resolves your concerns. If so, we will send the photolab schedule and the Treasury DO functional schedule to Treasury for agency approval.

Subject: Re: Update of DO Functional
CC: Stephen Cooper; Tracee Taylor

The schedule reflects what we agreed to in the meeting, and I'm fine with the revisions. As for the NWMW comments, it has to be clear that these schedules cover new transfers and that there is no retrospective conversion of superseded authorities. That may require a memo from Paul to Alan, or perhaps we can deal with it at Victor's/Judy's level. I assume we'll also be distributing the final jobs in NR, too, but with the expectation that there are no regional records.

Larry

>>> Henry Wolfinger 03/25/03 03:39PM >>>
Tracee and Larry

Per our agreement with NWCS this morning, I've added the following wording to the notes under items 13 (photographic prints, negatives, and slides) and 15 (sound recordings, videotapes, motion picture film) "Contact the agency records management officer to arrange for appropriate disposition of specific collections."

I also modified the transfer instructions for permanent photographs to read "Cut off at the end of each Presidential administration and transfer the required record elements listed above directly to NARA no later than 5 years after cutoff."

One other stakeholder comment needs to be dealt with. Victor Wagner of NWMWA offered the following suggestion: "It would be helpful if at the end of each item that the superseded authority(ies) be included rather than the blanket statement at the end." This is impractical. Six schedules are wholly superseded and a seventh in large part. Few items in these outdated schedules are still used. My advice to NWMWA would be to apply the old schedules to existing WNRC holdings, but accept no further transfers under such authorities once the functional is approved.

Let me know whether this arrangement is acceptable to you. The next step would be to forward the DO Functional and Photo Lab schedules to Treasury for approval. Do we need to register them before this is done?

Nope, sorry, in my cutting and pasting of the photopart of the FS to work on, I inadvertently added the photo lab schedule on to the FS, and didn't read far enough down on the page to realize it was there. Just delete that. There should be two WORD files - one for the photo lab and one for the FS.

Ed -

I'm bewildered. The item for the photo-lab appears in both attachments (unnumbered, but following item 16 in the functional schedule). Is this what you suggest?

Henry - See the attached. I took out the section of the FS that relates to stills and included it below and made a few suggestions and a request. Revised a bit of the Photo Lab Schedule, because the wording used was lifted from N1-56-01-03, and most likely does not apply to what is there now.

What do you think?
