Office of the Director of National Intelligence

Intelligence Community Equal Employment Opportunity and Diversity

Records Control Schedule

Mission

The Intelligence Community Office of Equal Employment Opportunity and Diversity (IC EEOD) serves as a key advisor to the Director of National Intelligence (DNI) on issues related to Diversity and EEO; provides leadership to the Intelligence Community (IC), especially through the EEO and Diversity principals and senior leaders in each agency; and ensures the provision of EEO services to the ODNI workforce. The Office plays a leadership role in designing and implementing innovative human capital programs and diversity practices to increase the overall representation of minorities, women, and persons with disabilities across the IC, and benchmarking model agency best practices for Title VII of the Civil Rights Act of 1964, as amended, and Section 501 of the Rehabilitation Act of 1973, as amended. To this end, IC EEOD works closely with all key stakeholders across the Intelligence Community to coordinate the development of EEO and diversity strategies and mechanisms to facilitate the implementation of ODNI-wide policies and to ensure compliance with applicable laws and regulations. Focus areas include ensuring equity in hiring and recruitment, retention efforts, promotions, rewards and awards, process improvement, career development programs, complaint management and resolution, and reasonable accommodations for persons with disabilities.

Application of the Records Control Schedule Disposition Instructions

The disposition instructions in the records control schedule are mandatory. Any Federal records received or created by IC EEOD personnel or contractors not specifically covered by this schedule or the General Records Schedules are to be retained until such time as an applicable disposition authority approved by the National Archives and Records Administration (NARA) is obtained. To take into account the fluid nature of electronic filing, those responsible for implementing this schedule should be aware that record copies of record types described in this schedule are to receive the prescribed disposition wherever they are filed.

The Information Management Technical Officer with responsibility for the records of the IC EEOD office will support effective implementation of the disposition requirements of this schedule through the development and issuance of appropriate operational guidance and supplementary instructions necessary to assure adequate and proper documentation of the official mission, responsibilities, and actions of the IC EEOD office.

Note on Sensitivity of IC EEOD Records

Many of the records addressed in this schedule are classified as national security information in accordance with statutory and national policy directives. Many of the records series described in this schedule contain information classified to the highest levels, requiring planning for their continued security until they are declassified or destroyed. The user of this schedule should assume the subject records are highly classified unless noted otherwise. In addition, certain series may contain material covered by Privacy Act or Freedom of Information Act restrictions other than National Security, such as law enforcement information or commercially sensitive ("trade secrets") information. An effort has been made to note these series.

Note on Vital Records

Records management personnel should be alert to the need to identify vital records so that they can be accessed quickly when needed. Vital records are (1) those that specify how the ODNI will operate in case of an emergency or disaster, (2) those necessary to the ODNI's continued mission critical operations during and after an emergency, and (3) those that must be preserved

to protect the legal and financial rights and interests of the ODNI and of persons affected by the ODNI.

Note on Electronic Records

The IC EEOD office and staff maintain record copies of many official files in electronic form on both shared and individual network drives. In addition, some staff members may keep some files on their individual local drives, although this is discouraged. In addition, electronic records may be stored at or accessed from other locations such as approved contractor facilities. Records kept on both the network and local individual drives or other locations that are not disposable under the General Records Schedules (GRS) or under this schedule, as approved, are to be moved or copied to the network shared drives or systems or kept in paper files, as appropriate, to be retained or destroyed in accordance with an approved ODNI disposition authority.
