## 700-104: INPUT-OUTPUT BENCHMARK COMPUTER WORKFILES

### DESCRIPTION

Reflects files that are aggregated to produce the final I/O accounts and contain all of the detailed, individual estimates of sales and purchases by industries and final markets which were developed during the preparation of the input-output study. Data from this file are aggregated to the industrial classification of the input-output study to provide the published data. They include initial analysis, distribution of the unallocated secondary products, etc. These files contain for each estimate: the producers' value, the trade and transportation costs, and the purchasers' price. In addition, a short note listing the source of the estimate is included. The work file data show unallocated output figures. The files are produced at various levels of aggregation (formerly S18).

### NARA DISPOSAL AUTHORITY

This schedule authorizes the disposition of the record copy in any media (media neutral), excluding any records already in electronic form. Records designated for permanent retention must be transferred to the National Archives in accordance with NARA standards at the time of transfer.

- NCI-375-81-1-30

### DISPOSITION INSTRUCTIONS

**PERMANENT** Direct offer to National Archives for accession, together with documentation, when it is made available to the public or two years after completion of the benchmark, whichever is sooner.

### 700-204: ANNUAL I-O ACCOUNTS SYSTEMS

#### DESCRIPTION

Consists of multiple work files and programs used to create the annual I/O and GDP by Industry accounts. Data files received from other agencies are run against bridge files which convert them into I/O categories. Data are kept as a time series for each industry, beginning with the benchmark year, and are updated as information becomes available. Data are aggregated to the 2-digit I/O industry level for publication (formerly S31)

#### NARA DISPOSAL AUTHORITY

This schedule authorizes the disposition of the record copy in any media (media neutral), excluding any records already in electronic form. Records designated for permanent retention must be transferred to the National Archives in accordance with NARA standards at the time of transfer.

- NCI-375-81-1-(34-39)

#### DISPOSITION INSTRUCTIONS

1. Input data received from BEA, Census Bureau, and other agencies. Delete when superseded by an updated file, or when all data have been entered into the work file
2. Bridge files, price index file, and other program files used to manipulate or format data. Delete when superseded or no longer needed.
3. Work files consisting of time series data at the 6-digit I/O industry level giving prices for products of both manufacturing and non manufacturing industries. Retain all data linked to the most recent benchmark. Delete earlier data after conversion to a new benchmark.
4. **PERMANENT** Annual I/O Accounts data: Direct offer to National Archives for accession (aggregated at the 2-digit I/O industry level), together with documentation, when it is made available to the public
5. **PERMANENT** Product control data files (Hard copy): Direct offer to National Archives for accession (at the 2-digit I/O industry level), together with documentation, when it is made available to the public (Item 31d)
6. System Copy: Retain all data linked to the most recent benchmark. Delete earlier data after conversion to a new benchmark
7. Intermediate Printouts: Destroy when superseded by an updated printout
