**RECOMMENDATION TO THE ARCHIVIST ON
RECORDS DISPOSITION REQUEST**

Job No. N1-AU-08-3

Item Count: 2

SUMMARY

The Department of the Army submits Job Number N1-AU-08-3, to request disposition authority for 2 new temporary items pertaining to the Army Logistics Program—Supporting Strategy (SS) and Supportability Analysis (SA) Files.

The files relate to Army acquisition milestone decisions made as a materiel system progresses from development to a fielded system. The SS and SA are documents required at a specific milestone point to ensure that the materiel is sustainable throughout its lifecycle.

None of the records in this series have sufficient historical research value to warrant permanent retention in the National Archives. They document routine business activity associated with the development and acquisition of Army materiel. The proposed retention ensures that the most current version of the milestone decision is retained throughout the life cycle of the materiel.

This job was published in the *Federal Register* on, June 12, 2008. One copy of this job was requested by Michael J. Churgin, Professor, University of Texas School of Law; however, no comments were received. The proposed retention period is adequate to provide government accountability and to protect the legal rights of all interested parties. I recommend approval of this job as submitted.
