ITEM DESCRIPTION OF ITEMS & PROPOSED DISPOSITION  
NO.

1. TICKET ORIGIN & DESTINATION SURVEY (DATA BANK 1B). The Office of Airline Information collects these data under authority of 14 Code of Federal Regulations (CFR) Part 241.19-7. This file is a 10% sample of all passengers' itineraries as represented by tickets collected by all certificated air carriers in scheduled passenger service for the quarter of the file date. It includes the full itinerary and the dollar amount paid by each passenger. The data are summarized by routing and dollars paid. Each record contains the number of passengers between the origin and destination airports by specific originating airlines through specific originating airports. Up to 25 points can be shown for each routing. Data also include city/airport codes, the distance between airports, the number of passengers flown between those airports during the quarter by the reporting carrier, and the number of passengers in the sample who flew an identical itinerary. Data Bank 1B is a modified version of Data Bank 1A. One modification is that Data Bank 1A data field "Coupon Type" is now covered by two data fields "Coupon Type Code for Operating Carrier" and "Coupon Type Code for Ticketed Carrier". A second modification is that the field length of Data Bank 1A data field "Fare Basis Code" was decreased by one character. Data Bank 1B replaces Data Bank 1A, which was appraised as permanent in record schedule (NC1-197-82-01/136).

INCLUSIVE DATES: January 1998 and thereafter.

STATEMENT OF RESTRICTIONS: There are business confidential access restrictions.

CURRENT VOLUME: 2 cartridges.
