7. ITEM NO.	8. DESCRIPTION OF ITEM AND PROPOSED DISPOSITION	9. GRS OR SUPERSEDED JOB CITATION	10. ACTION TAKEN (NARA USE ONLY)
	Motor Vehicle Smart System and Drivers License Smart System The Office of Highway Policy Information (HPPI), Highway Funding and Motor Fuel Division, provides motor vehicle registration data and motor vehicle receipts information annually for the <i>Highway Statistics</i> publication. The Motor Vehicle Smart System receives, processes, and produces tables annually that are used for the <i>Highway Statistics</i> publication. In addition, the motor vehicle registration data provides basic measures of highway use both annually and historically. For example, the registration tables include data by State on the following: number of automobiles (private/commercial and publicly owned), number of buses (private/commercial and publicly owned), number of trucks (private/commercial and publicly owned), private and commercial automobiles per capita, and motorcycles (private/commercial and publicly owned). The office produces a variety of trend tables, motor vehicle registration tables, pertinent tables for use by Congress, other Federal	New	

agencies, State and county governments, and individuals.

The Drivers License Smart System provides driver license data and driver license receipts information annually for the *Highway Statistics* publication. The Drivers License Smart System receives, processes, and produces tables annually that are used for the *Highway Statistics* publication. In addition, the drivers license data provides basic measures of highway use by gender and age both annually and historically. For example, a table includes the numbers of licensed drivers by sex and ratio to population for each State. The office produces a variety of trend tables, drivers license tables, pertinent tables for use by Congress, other Federal agencies, State and county governments and individuals.

The application does not directly support other applications. Data entry and validation functions allow State users to enter and verify their data. Analytical tools are provided to a HPPI analyst to allow adjustments to balance the State-submitted data.

Data associated with the system does not include personally identifiable information (PII) or other sensitive information.

1. ~~**Inputs.** Electronic data submissions by all State Department of Transportation and State Departments of Revenue, including those in the District of Columbia and Puerto Rico, which are entered into the system annually. Users enter the data in the application via direct user input (data entry). Headquarters analyst in HPPI enters most of their data via data entry.~~

~~**DISPOSITION:** Destroy/delete after input and verification of data into master file or when no longer need to support the reconstruction of master file, whichever is later.~~

2. **Master files.** Includes designed forms for motor vehicle registration and drivers license data (see Inputs).

DISPOSITION: PERMANENT. Cut off at the end of the calendar year. Transfer a copy of the master data file to the National Archives and Records

GRS 20, Item 2c.
